

AccuVent™ Attic Ventilation

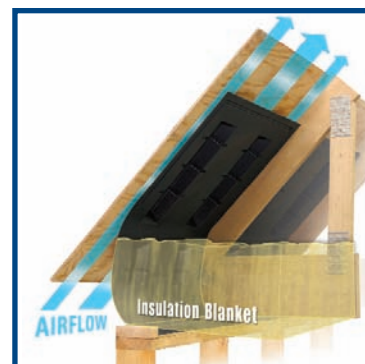

*Superior Quality AccuVent Soffit
Insulation Baffle is Built to Last!*

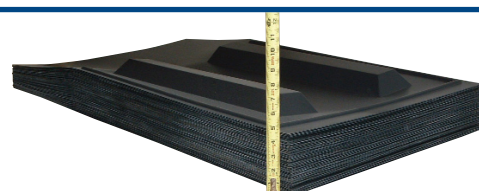

Size	Model #	Packaging	Skid
41" x 22.5"	ACCUVENT	50 pcs./ bundle	2,800 pcs./ 56 bundles

ACCUVENT™ SOFFIT INSULATION BAFFLE FEATURES:

- Easy to install with only six staples
- One step, labor saving installation – no additional stuffing of fiberglass required
- Non-porous – 100% recycled PVC does not allow air penetration into fibrous or blown insulation
- Unique design allows insulation to cover the entire outer wall of the structure
- Keeps insulation from getting into the soffit
- Allows 25.3 square inches of air flow into the attic
- Versatile fit – any roof pitch and truss size
- Perforated to easily adjust to roof truss spacing
- Flame retardant and self-extinguishing in less than 5 seconds
- AccuVent does not absorb moisture and will deter the growth of mold
- Easy to transport and store at the jobsite
